

GRUNDFOS GO REMOTE FULL CONTROL GOES MOBILE

SAVE TIME > GO MOBILE

Grundfos GO Remote gives you intuitive handheld pump control and full access to the Grundfos online tools on the go. So get ready to save valuable time on pump control, data collection and reporting with the most comprehensive mobile platform on the market.

Full control

Grundfos GO Remote gives you complete control over every aspect of pump performance, whether you are dealing with one or more pumps at a time. Now, you can monitor all relevant pump data, group pumps for increased manageability, change settings and much more.

More information and assistance

The user-friendly GO Remote interface gives you all the information and help you will ever need. GO Remote works with all our E-pumps and communicates using both radio and infrared technology. It provides easy-to-follow tips and guidance as well as live pump data feeds (duty point, power consumption, speed, temperature, etc.). Even the alarm log system has been designed to make error codes fully descriptive and intuitive.

More connected

With GO Remote, you will never be out of touch. You get around-the-clock help such as quick-links to all relevant documentation and full integration with our easy online sizing and replacement tools. Since your GO Remote application will be updated with new features and functions in the future, you will always be at the forefront of mobile pump technology.

More timesaving

GO Remote has been designed to save you time and effort. The built-in PDF generator stores your pump reports (documenting your pump configurations) and important notes safely in an easy-to-share format. This saves you the trouble of dealing with pen, paper and printouts. In larger systems, you can install or reconfigure groups of pumps easily and quickly with the Clone Pump Settings function.

CHOOSE YOUR HARDWARE

Your own smartphone

If you already have a smartphone, simply order the appropriate MI (mobile interface) device from Grundfos and download the free Grundfos GO Remote application available on the App Store and Google play.

Something you can share with colleagues

If you prefer a ready-to-use solution, Grundfos can provide an iPod touch, complete with the Grundfos GO Remote application pre-installed and a convenient cover with the MI (mobile interface) device built-in.

Compatibility

Grundfos GO Remote is backwards compatible with Grundfos E-pumps and will communicate with the following Grundfos products:

Pumps:

MAGNA
CRE, CRIE, CRNE
MTRE, SPKE, CRKE
TPE, TPED
